

Optimizing Neural Networks using Kronecker-factored Approximate Curvature (K-FAC)

Dmitry Kropotov

Bayesgroup seminar

7 октября 2016 г.

Distance between distributions

$$\mu_1 = 0, \mu_2 = 1$$
$$\sigma_1 = \sigma_2 = 0.5$$

$$\mu_1 = 0, \mu_2 = 1$$
$$\sigma_1 = \sigma_2 = 20$$

GD vs. NGD

Adding Levenberg-Marquardt for adjusting step size

Quality of K-FAC Fisher matrix approximation

True Fisher

K-FAC

difference between the two
